

FILED 22 NOV '22 14:20 USDC-ORP

UNITED STATES DISTRICT COURT
U.S. DISTRICT OF OREGON

Erika Katrin Meyer,

Plaintiff,

vs.

Federal Bureau of Investigation, Central
Intelligence Agency,

Defendants.

Case No.: 3L22-cv-01779-SI

**PLAINTIFFS' MOTION TO AMEND
COMPLAINT FOR INJUNCTION TO
INCLUDE TEMPORARY
RESTRAINING ORDER**

Pursuant to Rule 15 of the Federal Rules of Civil Procedure, I, the Plaintiff, Erika Katrin Meyer, respectfully move the Court for leave to file the attached Amended Complaint and Request for Injunction ("Amended Complaint").

Through the Amended Complaint, pursuant to Rule 65(b), 42 U.S.C. § 10607, and 18 U.S.C. § 3771 (Crime Victims Rights Act), Plaintiff seeks an immediate Temporary Restraining Order against the Defendants demanding that they cease engaging in or permitting, either directly or indirectly, all activities involving the use of biomedical weaponry, including the monitoring and accessing of any and all covertly implanted piezoelectrical devices; and also that they immediately cease all evidence tampering and surveillance activities which violate Plaintiff's rights under the U.S. Constitution including:

1. Plaintiff's first amendment right protecting freedom of speech and the seeking of redress of grievances
2. Plaintiff's fourth amendment right against unreasonable search and seizure
3. Plaintiff's fifth amendment right to due process, right to just compensation, and against self-incrimination

1 4. Plaintiff's eighth amendment right against cruel and unusual punishments

2 5. Plaintiff's fourteenth amendment protections against being deprived of life, liberty, and
3 property without due process of law, including via nonconsensual medical intrusions.

4
5 I, the Plaintiff, believe my case will prevail in court due to my extensive science-based
6 documentation of these activities, and due to the egregious nature and obvious illegality of the crime
7 itself.

8
9 On September 5, 2022 I sent a letter (attached) to the Portland office of the FBI asking that
10 they cease and desist all activities related to wireless frequency operated biomedical implants affecting
11 me and my family, with no positive results. This is after years of attempting unsuccessfully to report to
12 the FBI, to police, and to hospitals, adverse effects linked to what evidence shows are tiny devices
13 emitting easily detectible high-frequency signals. On September 16, 2022 I filed a Federal Torts Claim
14 Act complaint against the FBI for failing to follow up on reports of these crimes, and for engaging in
15 criminal conspiracy and other harmful acts designed to deprive me and my family members of life,
16 liberty, and property without due process. The aggressive, torturous, and harmful acts against the me and
17 my pets continued and intensified after I filed the FTCA complaint. Based on these patterns of behavior,
18 as well as on the injuries I have already suffered and witnessed, it should be clear that not only have I
19 already suffered irreparable harm, but that I am at imminent risk of additional irreparable harm.

20
21 I continue to experience wireless biomedical attacks day and night, waking up every morning
22 with the distinct sensation of having been attacked in the left side of my head around my left eye and
23 around the extraction cavity of tooth 14, and behind tooth 15. Often I wake in the middle of the night and
24 avoid going back to sleep as often these attacks seem worse at night. I also have pain throughout my body
25 and often have difficulty moving around after waking. In addition, my cat, Roxy, is also being attacked
26 with wireless frequency / biomedical weapons off and on throughout the day and especially at night,
27 showing ongoing visible injury in the forms of burns and lesions, and often crying out in pain from
28

1 sudden injury. I have documented all of this.

2
3 I am also experiencing regular attacks to my urinary system, lungs, skin, and gut as well as
4 periodic long-lasting severe back pain and spasms.

5
6 I have had approximately 21 doctors' visits over the past year, and four dentist visits, each and
7 every one of these visits directly related to pain and injury from wireless attacks linked to what is almost
8 certainly a network of tiny wirelessly accessed and operated piezoelectrical biomedical implants. I am on
9 a monthly plan of narcotic pain medication entirely because of severe pain caused by these biomedical
10 implants.

11
12 I can provide evidence of biomedical implants in various parts of my head and neck in the form
13 of video-recorded frequency scans using a bug detector going back to 2017. I have in my possession an
14 extracted tooth with a composite dental crown which has a history of emitting wireless frequencies off
15 and on, and a dental x-ray of the extraction area which appears to show a patch-like shadow, as if a device
16 were placed into the extraction cavity after the tooth was pulled, and is now embedded in the bone.
17 According to at least one dentist, the teeth adjacent to this extraction site are all showing "stress fractures"
18 and are in danger of cracking, even though, despite their claims, I do not grind my teeth.

19
20 I have photos of inflammation and redness that comes and goes in different parts of my body,
21 consistently in the same locations. I have a photo of my common law husband, Christopher Lynn
22 Newman (Chris), as he was dying showing the same type of redness and inflammation.

23
24 I have documented on video scientific measurements showing unusually high electromagnetic
25 fields in specific locations in my apartment (over chair seats, bed pillows), and very high nuclear radiation
26 readings on a Geiger counter. I have made videos of these measurements and have shown it to police and
27 reported to the FBI. I intend to submit these scientific readings as evidence at trial.

1
2 On November 19, 2022 I discovered a notebook belonging to Chris missing from my archives,
3 after first finding that emails dated October 26 with attached electronic pages from the same document
4 had gone missing from my Google Gmail account. This is part of an ongoing pattern of evidence
5 tampering and destruction going back to at least 2015. The evidence destruction includes my paper
6 records as well as documents stored on my computer, external hard drives, and Google cloud accounts.
7 This destruction has included a great deal of irreplaceable intellectual property as well, related to our
8 music career. I have documented several instances of this over the years.
9

10 I have reason to believe, and can show evidence that via frequencies (radiation) aimed at and
11 around these biomedical implants, Chris was deliberately given heart failure and terminal cancer after
12 suffering for years from a number of other painful and debilitating chronic conditions, all as a direct result
13 of wireless biomedical attacks. There is evidence that Chris was deliberately killed with the assistance of
14 Providence Hospital. There is evidence that that even after Chris was declared terminal, the FBI and/or
15 CIA deliberately hastened his death, and that they deliberately inflicted extra pain and suffering on him as
16 he died. The evidence is in the form of a number of scientific measurements and observations that I made
17 at the time and documented in my notes, as well as in Chris' medical records, where concerning
18 conditions were ignored by doctors until it was too late.
19

20 I attempted to report these crimes to the FBI, providing them with ample evidence to support my
21 allegations, on May 22, 2019. Two weeks later, on June 3, 2019, Chris suffered a collapse and ended up in
22 the hospital for two weeks, suffering from heart failure. This is when the cancer that was ultimately
23 discovered in January 2021 should reasonably have been detected, but tests showing tissue abnormalities
24 were not followed up on.
25

26 Almost two years later, Chris, sick with cancer, and I, his caregiver, regularly suffered
27 simultaneously from similar types of directed energy attacks. On April 5, 2021 I composed a Civil Rights
28

1 Complaint against the FBI and mailed it to the Department of Justice on April 7, 2021 (55091 KTM,
2 67107-PDP). The following day, April 8, 2021, Chris, who had been fairly self-sufficient and mobile up
3 until that point, suffered a collapse, losing all mobility by the end of the month and dying on May 9, 2021.
4 The Department of Justice Civil Rights Division never responded to the complaint or follow up email.
5

6 There is evidence that for unclear reasons, the FBI and/or CIA intends to kill me and other family
7 members, and there is evidence they have already killed others in my family as well. Any time I attempt
8 to address this problem via administrative, medical, or legal processes, the severity of these wireless
9 attacks increases, apparently as a form of retaliation. There is no reason to believe that the FBI and CIA
10 will not stop harming me and my loved ones without a court order and, perhaps most importantly, some
11 form of enforcement mechanism.
12

13 I think it is vital to recognize that as early as October 2017 I was able to consistently pick up
14 wireless signals from these covertly implanted biomedical devices using a \$250 wide frequency range bug
15 detector. Therefore, at from a technical perspective, the FBI, CIA, or another appropriate military agency
16 or biomedical research facility could easily perform similar tests, and could have done so years ago. The
17 refusal of the FBI to make any kind of effort in this regard despite being provided with ample evidence
18 pointing to wireless attacks involving implanted biomedical devices should speak volumes toward their
19 intent and to the danger this presents to myself, my loved ones, and any number of other Americans
20 whose very existence these agencies find, for whatever reason, inconvenient.

5 September 2022

My cat, Roxy has been suffering from a number of painful and distressing skin conditions over the years that are clearly linked to biomedical implants and directed energy weapons attacks. I also have been suffering from attacks to my lungs, head, stomach, and other parts of my body from these same kinds of biomedical implants. Using a wireless frequency tracer, I have detected high frequency signals coming from my gut, chest, legs (ankles, thighs, knees), hands, nose, eyes, teeth, neck, throat, and scalp. I have seen evidence of subcutaneous structures under the skin in my back associated with severe pain, swelling, inflammation, and redness. Likely related, above me at night, and presumably also during the day, there is a network of drones that mimic stars. I have evidence of all of this.

I have attempted to report these and related crimes several times over the years to the proper authorities, without success. It's increasingly clear that the FBI is directly involved in these crimes. Either you are directly tied to the biomedical implant networks and using the weapons on me, my pets and my loved ones, for reasons I cannot even begin to imagine – or you are working with another government agency or agencies.

These are physical assaults and torture, and there have also been hospital-linked murders of my loved ones through these piezo-electrical biomedical implant networks. This is a violation of our due process rights under the 6th, 7th, and 8th amendments of the US constitution as well as number of other laws – state, federal, international.

With this letter I am asking the FBI to cease and desist all illegal activities affecting me, my pets, and my family members. This includes unlawful search and seizures, unlawful destruction and manipulation of evidence, involvement in (or even allowing) medical malpractice, and all attacks through biomedical networks and/or via directed energy. If the FBI is collecting and distributing any kind of information about me or my family members outside of the bounds of the laws of this nation, including the 4th amendment, I am asking you to immediately cease and desist. If you are allowing the collection and promulgation of defamatory or otherwise illegal and harmful media through secret channels, I am asking you to immediately cease and desist this destructive, harmful, and illegal behavior.

Sincerely,

Erika K. Meyer

COMPLAINT AND REQUEST FOR INJUNCTION

I. The Parties to This Complaint

A. The Plaintiff(s)

Provide the information below for each plaintiff named in the complaint. Attach additional pages if needed.

Name	<u>Erika Meyer</u>
Street Address	<u>305 NE 61st Ave Apt D13</u>
City and County	<u>Portland, Multnomah</u>
State and Zip Code	<u>Oregon 97213</u>
Telephone Number	<u>971-888-1202</u>
E-mail Address	<u>ekm@seatsorm.com</u>

B. The Defendant(s)

Provide the information below for each defendant named in the complaint, whether the defendant is an individual, a government agency, an organization, or a corporation. For an individual defendant, include the person's job or title (if known). Attach additional pages if needed.

Pro Se 2 (Rev. 12/16) Complaint and Request for Injunction

Defendant No. 1

Name	Federal Bureau of Investigation c/o Department of Justice
Job or Title <i>(if known)</i>	Torts Branch, Civil Division
Street Address	P.O. Box 888 - Benjamin Franklin Station
City and County	Washington, D.C.
State and Zip Code	20044-0888
Telephone Number	(202) 616-4400
E-mail Address <i>(if known)</i>	FAX (202) 616-5200

Defendant No. 2

Name	Central Intelligence Agency c/o Department of State
Job or Title <i>(if known)</i>	Office of the Legal Adviser
Street Address	Suite 203, South Building, 2430 E Street NW
City and County	Washington, D.C.
State and Zip Code	20037-2800
Telephone Number	
E-mail Address <i>(if known)</i>	torts@state.gov

E-mail Address <i>(if known)</i>	

II. Basis for Jurisdiction

Federal courts are courts of limited jurisdiction (limited power). Generally, only two types of cases can be heard in federal court: cases involving a federal question and cases involving diversity of citizenship of the parties. Under 28 U.S.C. § 1331, a case arising under the United States Constitution or federal laws or treaties is a federal question case. Under 28 U.S.C. § 1332, a case in which a citizen of one State sues a citizen of another State or nation and the amount at stake is more than \$75,000 is a diversity of citizenship case. In a diversity of citizenship case, no defendant may be a citizen of the same State as any plaintiff.

What is the basis for federal court jurisdiction? (check all that apply)

Federal question

Diversity of citizenship

Fill out the paragraphs in this section that apply to this case.

A. If the Basis for Jurisdiction Is a Federal Question

List the specific federal statutes, federal treaties, and/or provisions of the United States Constitution that are at issue in this case.

4th amendment, 5th amendment, statutes listed in affidavit

B. If the Basis for Jurisdiction Is Diversity of Citizenship

1. The Plaintiff(s)

a. If the plaintiff is an individual

The plaintiff, (name) Erika K Meyer, is a citizen of the State of (name) Oregon.

b. If the plaintiff is a corporation

The plaintiff, (name) _____, is incorporated under the laws of the State of (name) _____, and has its principal place of business in the State of (name) _____.

(If more than one plaintiff is named in the complaint, attach an additional page providing the same information for each additional plaintiff.)

2. The Defendant(s)

a. If the defendant is an individual

The defendant, (name) _____, is a citizen of the State of (name) _____. Or is a citizen of (foreign nation) _____.

b. If the defendant is a corporation

The defendant, (name) FBI, CIA, is incorporated under the laws of the State of (name) U.S. federal government, and has its principal place of business in the State of (name) Oregon.
Or is incorporated under the laws of (foreign nation) _____, and has its principal place of business in (name) _____.

(If more than one defendant is named in the complaint, attach an additional page providing the same information for each additional defendant.)

3. The Amount in Controversy

The amount in controversy—the amount the plaintiff claims the defendant owes or the amount at stake—is more than \$75,000, not counting interest and costs of court, because *(explain)*:

the torts (and crimes) are longstanding, egregious, and involve significant injury, distress, and Theft.

III. Statement of Claim

Write a short and plain statement of the claim. Do not make legal arguments. State as briefly as possible the facts showing that each plaintiff is entitled to the injunction or other relief sought. State how each defendant was involved and what each defendant did that caused the plaintiff harm or violated the plaintiff's rights, including the dates and places of that involvement or conduct. If more than one claim is asserted, number each claim and write a short and plain statement of each claim in a separate paragraph. Attach additional pages if needed.

A. Where did the events giving rise to your claim(s) occur?
Portland, Oregon

B. What date and approximate time did the events giving rise to your claim(s) occur?
These are ongoing events which are the subject of pending litigation

Pro Se 2 (Rev. 12/16) Complaint and Request for Injunction

- C. What are the facts underlying your claim(s)? (For example: What happened to you? Who did what? Was anyone else involved? Who else saw what happened?)
(Affidavit)

Please see attached affidavit

IV. Irreparable Injury

Explain why monetary damages at a later time would not adequately compensate you for the injuries you sustained, are sustaining, or will sustain as a result of the events described above, or why such compensation could not be measured.
Issue of a safety around court proceedings

if these offenses do not end, there can be no attorney-client privilege, and witnesses, plaintiff, judges, attorneys may all be at risk

V. Relief

State briefly and precisely what damages or other relief the plaintiff asks the court to order. Do not make legal arguments. Include any basis for claiming that the wrongs alleged are continuing at the present time. Include the amounts of any actual damages claimed for the acts alleged and the basis for these amounts. Include any punitive or exemplary damages claimed, the amounts, and the reasons you claim you are entitled to actual or punitive money damages.
Cease and desist all activities ~~related to~~ described in affidavit

VI. Certification and Closing

Under Federal Rule of Civil Procedure 11, by signing below, I certify to the best of my knowledge, information, and belief that this complaint: (1) is not being presented for an improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation; (2) is supported by existing law or by a nonfrivolous argument for extending, modifying, or reversing existing law; (3) the factual contentions have evidentiary support or, if specifically so identified, will likely have evidentiary support after a reasonable opportunity for further investigation or discovery; and (4) the complaint otherwise complies with the requirements of Rule 11.

A. For Parties Without an Attorney

I agree to provide the Clerk's Office with any changes to my address where case-related papers may be served. I understand that my failure to keep a current address on file with the Clerk's Office may result in the dismissal of my case.

Date of signing: November 11, 2022

November 11, 2022

My name is Erika Katrin Meyer. I solemnly affirm under penalty of perjury that the following is, to the best of my knowledge, true. I was born March 29, 1968 in Friday Harbor, Washington and have been a resident of Portland, Oregon since August 2000. My daughter is Brook Morgan Thompson. She was born December 11, 1995 and is currently a PhD candidate at UC Santa Cruz. Christopher Lynn Newman (Chris) was my spouse since 2009. He was born in Longview, Washington July 11, 1953 and died in Portland Oregon May 9, 2021. I refer to him as my husband because we had been engaged beginning in fall of 2010, but he was fraudulently convinced by a friends and family not to enter into a legal marriage with me.

Beginning in late 2013, while doing research on Chris' history, I discovered what appeared to be a pattern of intellectual property theft and blacklisting of him going back to the mid 1980s. While looking further into this in order to understand what was going on, I began to notice first a lot of bizarre posts on social media where at the time, our contacts were almost entirely music related. I also noticed steadily increasing signs of computer hacking and intrusion into accounts. All of this seemed to increase significantly after I'd published an article about Chris' bands in September 2013, and into the winter holidays. The hacking became so destructive that I decided to delete several social media accounts rather than try to repair them.

Between January 18 and January 20, 2014 there was a sharp increase in hacking and other bizarre and seemingly coordinated activities in social media. On January 20 in particular I first noticed signs that my office computer web cam had been hijacked, and then, via things reflected back through media, it looked pretty certain that all of our webcams had been hacked and that there had been other surveillance in and around our home, and that data from the surveillance had somehow been distributed into the world. This was cause for real concern since we all had computers in our bedrooms and other private areas. I called to report this to Portland Police.

Before listening to my story or examining evidence, Officer Zach DeLong told me that it was standard operating procedure in cases of reported surveillance to first be evaluated by a physician. I was not concerned about this request since I was not a danger to myself or others, I was simply reporting a crime. DeLong brought me to a facility which I later learned was an emergency room, and I spoke briefly with a doctor. The doctor attempted to put me on an emergency psychiatric hold, but eventually released me. The following day I called police a couple more times trying to complete my report, but they refused to take any report from me. This initiated a pattern of ongoing and increasing attacks on me. Beginning January 25, 2015 I began to try to report the crimes to the FBI. Any attempts to report these crimes, whether to police or FBI seemed to put me at risk either or increased retaliation - either physical retaliation or captivity via a manufactured psychiatric hold.

Thus I was forced to try to investigate or understand these crimes without assistance or support from friends, family, an attorney, or law enforcement. In fact, when I did seek assistance, I was inevitably misdirected and lied to. My medical records are full of lies and misrepresentations that seem to be scripted and coordinated.

In particular, I was very confused at about who was behind these crimes, and some of the unusual technologies being employed. Beginning in 2014 I was cognizant of having been attacked by what I first understood to be some kind of wireless shocking devices. These attacks have varied in nature but have been ongoing and very noticeable since 2014.

Beginning in 2017 I began to notice signs of objects implanted under my skin, in my eyes, ears, nose, throat, dental work, and inside my digestive system. Based on something I'd seen online, in October 2017 I purchased a wide range bug detector with a directional antenna, and using this device, I was able to detect wireless signals coming from areas throughout my body, including from the aforementioned areas, and from my head and my heart. I made video of some of this bug detection. I also detected consistent wireless signals coming from

different areas in my apartment including fire sprinklers. I pretty quickly began to understand that the various electronic effects I'd been feeling were likely being aimed at the signals I was picking up with the bug detector. It took me some time before I was able to answer all the obvious technological questions about this - for example, how and when these devices were put into my body, why they aren't being detected on radiographs, what kinds of weapons are being aimed at the devices, and most importantly, who is behind all of this.

One thing I began to understand in 2017 is that one of the things that these biomedical implants seem to have been responsible for are decades of debilitating back spasms I have experienced since 1990. I also began to realize this technology was being used adversely on my husband, daughter, and other family members as well as on my pets. I didn't realize how much my husband had been suffering, however, until after he died and I immediately began to experience some of the same symptoms he'd had since I met him in 2009 including control and restriction of urinary function and associated abdominal discomfort.

April 3, 2018 one of my cats was pretty obviously tortured and killed with a directed energy weapon, dying at exactly 4:33 am.

May 22, 2019 armed with a significant amount of documentation, I attempted to report these biomedical reports to the FBI in person. I was told that they "probably would not investigate." Thinking that this might be an issue specific to the Portland office I followed up the visit with a written complaint to the Washington D.C. office and provided a list of links which included photographic and video evidence in support of my claims, as well as documentation of various scientific measurements showing evidence of unusual and possibly dangerous wireless frequencies. The FBI never responded to me, but approximately two weeks later, around June 3, 2019, Chris was hospitalized with heart failure. Two years later, on May 9, 2021, Chris would be dead of a cancer that the hospital should have found - and which evidence suggests they did find - in June 2019 - but which he was unaware of until January 2021.

I began to experience what were clear to me were biomedical attacks to my heart which became very severe in 2020 leading to several incidences where I had to call an ambulance to bring me to the emergency room. Every time I was told there was nothing wrong with me. I attempted to report these incidents to police as wireless attacks. Police told me they had no means to detect wireless attacks. I attempted to report the incidents to the FBI who consistently told me "we don't investigate these kinds of crimes" and instructed me to call police or go to the hospital. When I told the FBI that the hospitals seemed to be involved in this (as I'd discerned by that point) the FBI would simply hang up on me. But there were one or two instances where calls I'd made to the FBI were interrupted by unusual incoming calls from Providence Hospital. I recorded my calls to the FBI. Some of the recordings were electronically sabotaged later.

It took me a very long time to realize that the FBI themselves were involved in these activities. I started to understand this after Chris became sick with cancer, though as late as 2021 after Chris' death I was still trying to get help from the FBI. I was at a loss as to what to do about this. I spent quite a bit of time researching crime victims rights laws and redresses but was told that I couldn't evoke crime victims rights laws if the police refused to take reports from me. Eventually I discovered the Federal Torts Claims Act, and on September 16, 2022 I filed a claim with the Department of Justice against the FBI citing a number of complaints including their refusal to follow up on my crime reports. I still am in the process of seeking legal assistance but as time goes on I am becoming increasingly convinced that the CIA is also involved in these wireless attacks and so it is likely that they will ultimately also be named as defendants.

I had hoped that by filing these claims and directly asking the FBI to cease biomedical/wireless attacks, that they would do so voluntarily, but of course, the exact opposite has happened. My remaining pet cat and I both experience daily physical attacks via directed energy devices and frequency-based weapons systems, likely linked to drones and antenna towers. I can show evidence of unusual drone activity. I also believe other family

members are being harmed, and that potential witnesses, attorneys, and judges may be at risk. Furthermore, because of the retaliatory patterns, it's pretty obvious that there is really egregious surveillance going on, including surveillance of my computer screen, as well as monitoring of phone calls and text messages. All of this is likely to have a chilling effect on my ability to seek counsel and access a fair trial. There is even evidence that this technology is used regularly to control thoughts and behavior. If the FBI/DOJ and CIA/State Department are permitted to engage in these kinds of surveillance, attack, and control activities unchecked, it's a threat to the very notion of justice.

In addition, there has been an ongoing and pervasive pattern of evidence tampering and destruction. This includes tampering with physical files kept in my apartment or locker, as well as electronic files on my computer, external hard drives, and google cloud accounts. This evidence tampering and destruction also needs to be stopped.

I have reason to believe that both I and my daughter are in extreme danger from the FBI and/or CIA. I have what I consider to be a significant amount of evidence that my husband Chris was sickened, tortured, and murdered by the FBI and CIA and I believe that I have clear evidence of FBI/CIA conspiracy to commit murder against me and my daughter as well, in the form of some of these implants, including implants that were put into my body after 2014. My daughter also has shown many signs of being implanted, sickened, and harmed in a number of ways, psychologically as well as physically.

I am asking for an injunction against the FBI and associated parties (for example, any associated weapons, research, or hospital/medical systems or other contractors) to cease and desist all activities related to biomedical weapons used on all American citizens pending the outcome of this complaint and/or trial. I am also asking for a cease and desist order on surveillance activities centering me, the complainant, my daughter, our family members, and any potential attorneys, judges, or witnesses.

Involved activities and threats include:

- evidence tampering (both physical and electronic evidence) ORS 162.295
- harm to my cat, Roxy, or other pets ORS 167.320, ORS 167.322
- harm to me, my daughter, potential witnesses, attorneys, judges ORS 163.185, ORS 163.175, ORS 162.415
- threats (including implied threats) to me, my daughter, potential witnesses, attorneys, judges ORS 163.190
- other attempts to influence judges, attorneys, or witnesses ORS 162.285, ORS 162.015, ORS 162.025, ORS 162.085
- warrantless (unlawful) surveillance of me, potential witnesses, attorneys, judges ORS 9.750, ORS 162.425
- ORS 161.450 - criminal conspiracy (conspiracy to commit murder among others)
- violations of 4th and 5th amendment (unlawful surveillance)

All the facts stated above are true and correct to the best of my knowledge.
