## **What to expect**

### **① We review your report**

Our specialists in the Civil Rights Division carefully read every report to identify civil rights violations, spot trends, and determine if we have authority to help with your report.

### **② Our specialists determine the next step**

We may decide to:

**Open an investigation** or take some other action within the legal authority of the Justice Department.

**Collect more information** before we can look into your report.

**Recommend another government agency** that can properly look into your report. If so, we'll let you know.

In some cases, we may determine that we don't have legal authority to handle your report and will recommend that you seek help from a private lawyer or local legal aid organization.

### **③ When possible, we will follow up with you**

We do our best to let you know about the outcome of our review. However, we may not always be able to provide you with updates because:

We're actively working on an investigation or case related to your report.

We're receiving and actively reviewing many requests at the same time.

If we are able to respond, we will contact you using the contact information you provided in this report.

Depending on the type of report, response times can vary. If you need to reach us about your report, please refer to your report number when contacting us. This is how we keep track of your submission.

I am being attacked daily with directed energy weapons, some of which I understand to be drone-based. Police and FBI refuse to help or protect me and I believe they may be involved in the crime, and in smearing me with false medical diagnoses and in other types of cover-ups including evidence destruction. I am in danger and so is my daughter. We need to be protected from this crime as soon as possible. We need medical care that we can't get because of corruption. Please help quickly (follow up to 55091-KTM)
